

JC WEIDA:

I am currently the Associate Certified Athletic Trainer at The University of Montana in Missoula. Though I work in the training room with all athletes my assigned sports are football, tennis and golf. I also teach and supervise students in the curriculum based athletic training program. I have work at U of M since the fall of 1996.

I received my BS. in HHP- Athletic Training and MS. in Exercise Physiology at The U of M. Both of my parents went college in Missoula and my father in law went to law school in Missoula. All my kids could sing the U of M fight song by the age of 2. Needless to say I was born a Griz. I went to High School at Powell County High School in Deer Lodge where I participated in football, wrestling and track.

I am married and have 4 kids. My wife, Renn, is a part time surgical technician at a facial plastic surgery center as well as a great mom. I have 9 year old boy, girl twins Ezra and Isabella a 6 year old daughter Maggie and a 4 year old son Joe.

When I am not at work or taking care of kids I like to do outdoor activities like fishing, hiking, rafting and yard work. Really, most of time is spent transporting and watching the kids be active in soccer, football, basketball, piano and school.
